Journal of Combinatorics, Information & System Sciences

Vol. 47
No. 1-4
(2022)

(A Quarterly International Scientific Journal)

JCISS is Indexed/Abstracted in
Zentralblatt Math, Mathematical Reviews, EBSCO, ProQuest, Genamics(Journalseek)

A RESEARCH JOURNAL OF
FORUM FOR INTERDISCIPLINARY MATHEMATICS

Published by

Prints Publications Pvt Ltd
Viraj Tower 2, 4259/3, Ansari Road,
Darya Ganj, New Delhi-110 002
www.printspublications.com

ISSN:	0250-9628
e-ISSN:	0976-3473
Current Volume:	47 (2022)
Periodicity:	Quarterly
Month(s) of Publication:	March, June, September & December
Subject:	Mathematics
DOI:	10.32381/JCISS

Subscription Price

Print + Online (India):	₹ 4000
Print Only (India):	₹ 4000
Online (International):	$ 400
Print (International):	$ 400

Online Access is Free for Life Members

About the Journal

Journal of Combinatorics & System Sciences (JCISS) publishes significant original papers and survey articles on important advances, carrying theoretical and practical results of Mathematical orientation in any one of the following major areas: Combinatorics (e.g., Graph Theory, finite Geometries, Combinatorial Geometries, Combinatorial Problems in Number Theory and Abstract Algebra, Coding Theory, Block/Factorial Designs, Search and Combinatorial Problems in Statistical Inference). Information Theory (e.g., The Shannon Theory, Rate-Distortion Theory, Theory of Error-Correcting Codes, Detection and Estimation, Communication, Sampling Theorems, and Stochastic Processes, Pattern Recognition, Measures of Information and their Applications in Physical Sciences, Social Sciences, Commerce and Business Management, Humanities, and Statistics) Mathematical System Theory (e.g., Topological Dynamics, Theory and Dynamical Poly systems, General System Theory, Formal System Theory, Reliability Theory and Practice, Mathematical Theory of Automation and Algorithms, Algebraic System Theory, Ergodic Theory, and Mathematical Linguistics) Computational Intelligence Techniques (e.g., Fuzzy set theory and its generalizations, Soft set theory, Computing with Words, Neutrosophic Sets, and Systems, Interval Analysis, Rough Sets, Algorithmic Developments and Applications in Real-Life Problems. Journal of Combinatorics & System Sciences is published four times a year. As a result, the journal serves as a forum for all researchers and practitioners engaged in research and development in these fields. Journal of Combinatorics & System Sciences also presents refereed surveys, book reviews, tutorial articles, and comments on already published papers in JCISS. Special issues devoted exclusively to any important subarea of the journal may also be published.

Editor-in-Chief

Editor -in -chief: Viswanath Ramakrishna

Dept. of Mathematical Sciences,
University of Texas at Dallas, 2601
N. Floyd Rd, Richardson,
TX 75080, USA.
