Product Description

"Civilization and Its Discontents" is one of the most important works by Sigmund Freud, first published in 1930. In this book, Freud explores the complex relationship between individual desires and the demands of society. The text is both a psychological and philosophical

examination of human nature, society, and the inherent conflict between the two. The book is a critical reflection on the cost of progress, and it remains one of Freud’s most influential and widely discussed works.
