About the Author

Harbans Lal Kaila

Professor Harbans Lal Kaila earned his Masters' degree in Psychology from Guru Nanak Dev University, and PhD from Tata Institute of Social Sciences (TISS), Mumbai. He served as a Professor of Psychology (Retd.) in SNDT Women's University and the Central Labour

Institute, Mumbai for >28 years. He also represented India in conferences in New York, Berlin, Muscat, Rome, New Zealand, Japan, London, Dubai, Cairo, Malaysia and Sydney. He is the Editor of The Journal of Psychosocial Research and authored many books and research articles, director of the Forum of Behavioural Safety and has successfully conducted >1000 behavioural safety culture programs and national conferences for industry.

Product Description

Daily fires and fatalities across the country slow down the national economic growth, emphasising the need for cultural change to develop a sustainable safety mindset.This manuscript represents theauthor’s continuous effort to help organisations build positive safety cultures and includes fourteen chapters highlighting novel aspects of the Economics of Safety Culture Management from a practitioner’s perspective.It proposes a three-step approach—introduction, intervention, and integration—for implementing a robust safety culture within organisations.Enriched with examples,casestudies,data,and extensive literature review, the book is useful for industry professionals and management or engineering students, and supports the creation of a Living Injury-Free Environment (LIFE).
